A VIBRANT VILLAGE IN THE HEART OF LONDON

Located in the heart of Marylebone, within the City of Westminster, Baker Street is ideally located in one of London's most unique and atmospheric residential districts. Marylebone has all the distinctive flavours of a quaint, modern village, surrounded by pedestrian streets, glorious greenery, boutique stores and craft eateries. It conjures the magic of suburban life, all the while being located mere minutes from Oxford Street, the world's largest high street, offering 1.5 miles of unrivalled shopping.

Marylebone has emerged as a vibrant and trendy location, nestled away from the hustle and bustle of the daily city rush. It offers a truly unique experience, combining the relaxed pace and serenity of village life, with an address in the heart of Central London. Its location sets it apart, position between two of London's most prestigious Royal Parks, with Regent's Park to the north and Hyde Park to the south, offering residents the chance to immerse themselves in the spacious surrounds of some of the world's most popular public spaces.

THE STORY OF BAKER STREET

Named after builder William Baker, Baker Street originated in the 8th Century as an affluent area within the Borough of Westminster. The area originally consisted of luxury housing for wealthy residents and developed a reputation as being one of the swankiest and trendiest residential districts within London. The street itself is over 1.5 km long and connects Marylebone to Oxford Street, making it one of the main arteries within the West End. The area surrounding Baker Street is home to some of the most desirable entertainment and hospitality venues throughout London as a whole. World renowned eateries such as Chiltern Firehouse, Fischers and Nobu are within mere walking distance of 98 Baker Street.

Baker Street is steeped in history and culture which makes it an instantly recognisable location. It is, of course, the homeplace of one of the world's most prominent detectives Sherlock Holmes and it was the birthplace of Madame Tussauds famous wax museum. Baker Street Underground station is the oldest underground station in the world, the movie, 'The Bank Job' was inspired by a real life 1970s heist in the area, and it has even been the focus of multiple songs and poems over the years.
